

**Recognition of Sponsoring Institutions with
Non-Standard Training Programs for J-1 Visa Sponsorship
Examples of Non-Standard Training Program Types
Institutional Review Committee**

This list of non-standard training program types includes examples of non-standard training programs that were previously approved for participants in the Exchange Visitor Program with J-1 visas sponsored by the Educational Commission for Foreign Medical Graduates. In this list, each program type has been linked to its most closely related specialty(ies) and/or subspecialty(ies).

When a Sponsoring Institution receives Initial Recognition, descriptions of active non-standard training programs must be entered in the ACGME's Accreditation Data System (ADS). These program types and relationships to ACGME-accredited programs may be selected when entering a program description.

Sponsoring Institutions may request new non-standard training program types and new specialty/subspecialty relationships that do not appear on this list. Email irc@acgme.org with questions.
